NCSEA VW Letter
The NCSEA has convened a working group on EVs over the past several months. One of the issues they have discussed is the funding allocation of VW Mitigation Trust. NCSEA send Gov. Cooper the attached letter urging NC to allocate 15% of settlement funds for EV charging infrastructure.

The letter was signed by the following organizations: NCSEA, Duke Energy, Southern Alliance for Clean Energy, Electrification Coalition, EVgo, NC Clean Energy Technology Center, Advanced Energy, Chargepoint, Sierra Club and Brightfield.

CERES VW Letter
Today I received the attached letter to Gov. Cooper from CERES, which represents large companies located in NC. The letter encourages NC to put 15% of VW funds to EV infrastructure, prioritize zero-emitting vehicles, and invest in communities disproportionately affected by air pollution.

Hi Jeremy:
I hope you are doing well. As you know NCSEA has had a working group on EVs the past several months. One of the issues we have discussed is the funding allocation of VW Mitigation Trust.

To that end, the attached letter signed by the following organizations: NCSEA, Duke Energy, Southern Alliance for Clean Energy, Electrification Coalition, EVgo, NC Clean Energy Technology Center, Advanced Energy, Chargepoint, Sierra Club and Brightfield was mailed to Gov. Cooper today urging that NC allocate the maximum allowable amount (15%) of settlement funds for EV charging infrastructure. You may have seen that Virginia recently did this.

I wanted to make sure you had a copy of the letter. Please feel free to reach out to me if you have any questions. I have copied all of the individuals and organizations who have signed onto the letter -

Thanks,
Diane Cherry
